Zhao Zeyuan

Address: Sichuan University, Chengdu
Tel:(+86)15388331889 | Email: zhaozeyuan@stu.scu.edu.cn

Education

- Major: Computational Finance September 2018-July 2022

  College of Computer Science, **Sichuan University**
- Degrees:

  Bachelor of **Engineering** In Computer Science and Technology

  Bachelor of **Economics** In Financial Engineering
- Overall GPA: 87(3.62/4)
- Ranking: 6/22
- IELTS: 6.5(5.5)

Interest Areas

- Machine Learning
- Data Mining and Analysis
- Artificial Intelligence

Future Plans

- Study higher-level knowledge and broaden my horizon
- Do researches related to the application of AI, especially in the fields of Finance and Health
- Keep passionate and enthusiastic
- Strive to make a contribution to the things I love

Internship and Research Experiences

Summer Internship , School of Computing, National University of Singapore (May 2021-July 2021)

Advisor: Anand Bhojan, Senior Lecturer, School of Computing

Topic: Stock Consultant Web App based on AI/ML methods

- Extracted features from stocks' data, cleaned data, and studied the selected features.
- Designed database and web app.
- Developed a quantitative model which can be used to predict stocks' trend and offer financial suggestion using linear regression, decision tree and LSTM methods respectively, and stored the results in database.
- Visualized the predicted data and gave users suggestions.

Research Internship, College of Computer Science, Sichuan University (October 2020-March 2021)

Advisor: Yu Zhonghua, Associate Professor, College of Computer Science

Topic: Analyzing the readability of Financial Statements based on Machine Learning models

・Studied the applicability of machine learning and neural networks.

・Extracted features from text information of financial statements, and cleaned data.

・Applied linear regression model to measure the readability of financial statement.

・ Improved the model's loss function, using ridge regression(L2 regularization) and lasso regression(L1 regularization).

・Compared the results from different methods, and drew the conclusion.

Summer Internship, Department of Information Technology, Sichuan Xiwang Bank

(July 2020-September 2020)

Advisor: Huang Yong, Senior Engineer, Department of Information Technology

・Developed the company system tools using Java.

・Developed and maintained the company database using SQL.

・Gained business experience and teamwork skill.

Honors and Awards

・Golden Medal, China Collegiate Algorithm Design&Programming Challenge Contest	2021.03
・ Provincial Prize, China Undergraduate Mathematical Contest in Modeling	2020.11
・Outstanding Student, Summer Social Practice, Sichuan University	2020.10
・Individual First-class Scholarship, Sichuan University	2020.10
・ Provincial Prize, China Undergraduate Mathematical Contest in Modeling	2019.11
・Individual First-class Scholarship, Sichuan University	2019.10
